

This listing of the claims will replace all prior versions, and listings of claims in the application.

In the Claims

1. (Currently amended) A system for performing sales transactions online comprising:

a database;

said database containing information about various sales agents;

said sales agent information comprising whether sales agent is male or female, and age of sales agent;

said database containing information about each user;

said information comprising information about a user's personal life, and information about a user's business activities;

said database communicating with said user either orally or in writing.

2. (Previously presented) The system of claim 1 wherein said sales agent comprises a three-dimensional representation of a person.

3. (Cancelled)

4. (Original) The system of claim 1 wherein said database records each sales transaction completed.

5. (Cancelled)

6. (Original) The system of claim 1 wherein said communication can be via e-mail, a web site, palm pilot, cell phone, or other wireless means.

7. (Currently amended) A method for performing sales transactions online comprising;

logging into a database by a user;

entering a password or other information by said user that can be identified by said database;

choosing a virtual sales agent from the database by said user by either entering characteristics of a sales agent comprising whether said sales agent is a male or female and age of said sales agent into said database or clicking on a picture of a virtual sales agent or a resume of a virtual sales agent provided by said database;

providing information to said virtual sales agent by said user about a product or service [a] said user wants to purchase.

8. (Currently amended) A method of performing a sales transaction online comprising:

providing information from a sales agent to a computer database before a client logs on to said computer database, said information comprising information about a clients personal life, past business transactions, and information about products comprising price, quality and quantity;

logging into said computer database by said client;

determining where said client is logging in from;

providing information to said client through said computer database concerning the client's personal life;

providing information to said client through said computer database concerning past business transactions;

providing information to said client through said computer database comprising price, quality or quantity information for products for sale;

providing further information to said computer database by said client in relation to information provided to said client.

9. (Original) The method of claim 8 wherein said information is provided via e-mail, a web site, palm pilot, cell phone, or other wireless means.

10. (Currently Amended) The system of claim [3] 1 wherein said user's personal life comprises information about said user's family, hobbies, where said user lives, and sports teams liked by said user.

11. (Currently Amended) The system of claim [3] 1 wherein said user's business activities comprise types of purchases said user has made, sales range of goods or services user has made in past, delivery, shipping and billing information.

12. (Previously presented) The method of claim 8 further comprising: providing weather information to said client based on where said client has logged in from.

13. (Previously presented) The method of claim 8 wherein said past business transactions comprise whether current orders have been received.

14. (Cancelled)

15. (Currently Amended) The method of claim [14] 8 further comprising:
providing information to said computer database in relation to information provided by
said client.
